

IN THE CLAIMS:

Kindly cancel claims 2-4, 7, 8 and 12-26, and amend claims 1, 3, 5-6, and 9-11 as follows:

1. (Twice Amended) A matrix-type patch formulation containing no water for external use, comprising, as essential components:

0.1-20% by weight of an acid addition salt of a basic drug,
[an] 0.01-20% by weight of one or more organic [acid] acids
selected from the group consisting of lactic acid, tartaric acid,
citric acid, malic acid, benzoic acid and salicylic acid; and

0.01-20% by weight of an organic acid salt ~~as essential~~
~~components,~~

wherein the ratio of the acid addition salt of the acid
addition salt of the basic drug to the organic acid salt ranges
from 5:1 to 1:5 (by equivalent ratio).

2. (Cancelled)

3. (Cancelled)

4. (Cancelled)

5. (Twice Amended) The matrix-type patch formulation for external use according to claim 1, wherein the organic acid salt is a metal salt of a carboxylic acid.

6. (Twice Amended) The matrix-type patch formulation for external use according to claim 1, wherein the organic acid salt is sodium acetate.

7. (Cancelled)

8. (Cancelled)

9. (Twice Amended) The matrix-type patch formulation for external use according to claim [2] 1, wherein the ratio of the acid addition salt of the basic drug ~~to the~~ to the organic acid, ~~ranges~~ is from 5:1 to 1:5 (by equivalent ratio).

10. (Twice Amended) The matrix-type patch formulation for external use according to claim 1, wherein the ratio of the organic acid to the organic acid salt, ~~ranges~~ is from 3:1 to 1:20 (by equivalent ratio).

11. (Twice Amended) The matrix-type patch formulation for external use according to claim [2] 1, wherein the acid addition salt of the basic drug is at least one agent selected from the group consisting of hypnotics/sedatives, antipyretic anti-inflammatory analgesics, antimigraine agents, stimulants/antihypnotics, anti-psychoneurotics, local anesthetics, agents for urinary organs, skeletal muscle relaxants, agents for autonomous nerves, anti-Parkinsonian agents, antihistamines, bronchodilators, cardiotonics, coronary vasodilators, peripheral vasodilators, agents for circulatory organs, antiarrhythmics, antiallergics, antidizzying agents, anti-serotonin-receptor antiemetics and narcotic analgesics.

12. (Cancelled)

13. (Cancelled)

14. (Cancelled)

15. (Cancelled)

16. (Cancelled)

17. (Cancelled)

18. (Cancelled)

19. (Cancelled)

20. (Cancelled)

21. (Cancelled)

22. (Cancelled)

23. (Cancelled)

24. (Cancelled)

25. (Cancelled)

26. (Cancelled)
